

## Key Insight

## To Maximize Success

### Executive Course Summary:

Behavioral Pattern Assessment (BPA) specifically addresses the increasing efforts of Federal, State and Local Law Enforcement to adopt newly recognized professional intelligence applications. This course introduces The MASY Group's proprietary basic techniques of BPA and Time Sensitive Engagement (TSE) in order to maximize effective law enforcement tactics. By providing key human behavioral assessment strategies this course will enhance law enforcement efforts to identify sources of potential and impending threats. Our professional understanding of human behavior has been developed, with significant success, through our experiences in the U.S. Intelligence Community, Armed Forces and the Global War on Terrorism (GWOT).

#### Target Audience:

*All law enforcement personnel to include management, patrol officers, Sheriff's office, detectives, intelligence and undercover officers, community liaison officers, and any key personnel assigned to Joint Terrorism Task Force (JTTF).*

#### Course Length:

*1 to 3 days*

## The Course Addresses the Following Topics:

Introduction to BPA  
& Its Applications

How to Recognize Behavior  
Structures
